

Winford Primary School 2020 – 21 Remote Learning Planning

What did we learn from lockdown in the Spring/ Summer terms 2020?

At first, we felt distanced from our pupils, but by using technology teachers quickly developed our school offer to include:

Pastoral Support

- Group and whole class pastoral opportunities for all pupils through MSTeams
- Phone calls to families and children
- ClassDojo and email to communicate directly with classteachers
- In school provision for most vulnerable children

Academic Support

- Work set and returned using ClassDojo
- Lessons through Oak National Academy
- Individual learning packs for children with limited access to internet
- Set tasks for children to complete across all curriculum areas
- ClassDojo or email to communicate directly with classteachers

This offer evolved over the lockdown and represented a growing understanding of the technology available to us whilst acknowledging that teaching remotely will not be the same as teaching in the classroom.

What are we aiming to achieve through our remote teaching?

We need to ensure that our remote learning offer is:

Easy to access

- Children have access to Teams/Tapestry/ClassDojo and appropriate hardware to access online learning
- Staff have appropriate training and confidence to deliver remotely

Harder to stop

- Our curriculum continues in the event of individual, class or whole school closures
- A structured timetable, closely following that in school, will give children a structure they are familiar with and will support them to be on task and limit distractions from the home.
- Ensure that all teaching sequences have high quality teacher input and explanations; opportunities for children to apply learning; learning is assessed through submitted work and feedback is given; low stakes quizzes and frequent opportunities to review and revise learning.

Easier to restart

- We aim to create curriculum continuity with our remote learning offer so that it can be picked up again, in school, when individuals or classes return to face to face teaching.
- Opportunities for additional support and teacher input that reduces misconceptions, and difficulties, so children's learning journeys aren't halted by barriers to progress.
- Regular opportunities for assessment and feedback to enable both teachers and children to have a clear understanding of their current learning.

What are the tools available to us for achieving this?

We will primarily use ClassDojo for teachers to communicate directly with parents and vice versa. For setting of work remotely, we are using a combination of email and MS Teams, to suit parents needs.

We are also using MS Teams to deliver wider teaching support for our pupils and their families in the event of whole class or whole school closures as it provides the ability to deliver live video. All children from Year 1 up have Microsoft accounts and access to online reading schemes. Families are supported to access these.

We need to ensure that, in the event of a partial or full school closure, children have access to IT equipment to access daily lessons.

We need to ensure that all staff have additional training to support the delivery of wider Home Learning through MSTeams.

How will our remote learning be structured?

Remote learning will be sent out via email and / or Teams weekly. Weekly tasks for each subject will be set up to allow children to submit work. This will allow families to access learning if/ when they need it. We will aim to use MSTeams as a method of sharing work to build confidence in the platform.

Individual Children who are isolating for less than 5 days (eg. waiting for a test result), but able to work:

This is our aspirational view on the offer we would like to deliver in the events listed above. Owing to unknown factors like staff illness and the possibility of teachers contracting COVID-19, we cannot guarantee that this offer will be fully delivered. However, where possible we will endeavour to make this our vision for home learning.
